DEBT/GDP RATIO

BUDGET: VARIOUS COMPONENTS

The Budget comprises of three parts:

- 1. Consolidated Fund
- 2. Public Account
- 3. Contingency Fund

The Consolidated Fund is the source for all the "usual" budgetary transactions whether of capital, revenue or loan nature. Tax and Non-Tax revenues are entered into the Consolidated Fund and any expenditure which are to be met from the Consolidated Fund must be voted by the Legislature. Expenditures of 'Charged' nature are also met out of the Consolidated Fund.

The Consolidated Fund itself comprises of two parts:

- a) the revenue account; and
- b) the capital account.

The revenue account comprises expenditures incurred in connection with the routine administration such as salaries, wages, maintenance and repairs, telephone expenses, day to day office running expenses and other overheads. Expenditures relating to the creation of assets which includes most (but not all) of Plan expenditure is covered in the Capital account.

Revenue receipts are all those incomes which do not incur repayment liability. These include, in addition to the own revenues, grants from the Central Government for the financing of Plans, as well as revenue grants.

Capital receipts include internal debt, loans from the Center and recovery of its own loans advanced to Corporations, Co-operative Societies, etc., and are entered in the capital account. On the outlay side of the capital account, there are expenditures corresponding to own investment outlay and disbursements, which comprise of repayment of public debt and the loans and advances made to the various entities. Thus, both the capital and debt portions of the Consolidated Fund are under the Capital budget.

The Public Account includes those funds which do not belong to the Government but which it holds in trust for other entities. This would include such items as accumulations of the employees' provident fund, reserve and depreciation funds, deposits from Municipal Corporations, pension fund etc. It could rightly be characterized as the fund for which the acts as "banker".

The Contingency Fund, as its name implies, is a fund for emergency use. It is included in the Budget to cover generally the decretal amounts and other unforeseen emergent expenditures. Expenditure from the Contingency Fund can be made with Cabinet consensus alone and hence have the advantage that the budgetary procedure involving legislative approval - is circumvented; albeit the seal of Legislature subsequently to the expenditure thus incurred is a must. The monetary ceiling of Contingency Fund is raised every few years through the budgetary process.

DEFINITIONS:-

- 1. **Revenue Receipts** are all those receipts, which do not incur repayment liability. These include own revenues (Tax and Non-Tax), share in central taxes, statutory and non-statutory grants from the Central Government. These also include interest and dividend on investments made by the Government.
- Revenue Expenditure covers all the routine administrative expenditure, such as salaries and wages, pension, interest payments, maintenance and repairs. Also, overheads like payment of rent, taxes and other establishment expenditure.
- 3. Capital Receipts include loans raised by the from the market, borrowings from RBI and other institutions, loans from the Centre, receipts from special securities issued to NSSF and the recovery of its own loans and proceeds from disinvestment of Government's stake in Public Sector Undertakings.
- 4. Capital Expenditure relates to the creation of assets. This corresponds to the investment outlay on the acquisition of permanent assets like land, buildings, plant &machinery and all other physical infrastructure. Disbursements, which comprised of repayment of public debt and loans and advances made to the various entities, are also taken as Capital Expenditure.

- Miscellaneous Capital Receipts (MCR) are treated as Non Debt Capital Receipts.
- Primary Deficit is Fiscal Deficit net of 'Interest Payments and Debt Servicing' under Revenue Component.
- 7. **Revenue Deficit** is the difference between Revenue expenditure and Revenue Receipts.
- 8. **Budget Deficit** is the difference between total expenditure and total receipts and has to be zero in the absence of monetization. Governments have no access to the monetization route and as such Budget Deficit in their case ought to be zero.
- 9. **Fiscal Deficit** is the difference between total expenditure and revenue receipts, recovery of loans & advances and other non-debt capital receipts.
- 10. **Finance Bill** consists the Government's proposals for the imposition of new taxes, modification of the existing tax structure or continuance of the existing tax structure beyond the period approved by the legislature.
