DR ARUN KUMAR MEHTA
IAS

सत्यमेव जयते

FINANCE COMMISSIONER
FINANCE, J&K

The benefits of development percolate down to the masses primarily only after projects/works get completed in a time bound manner with adherence to all requisite norms and maintenance of quality parameters. The UT of J&K is committed to change the perception and tradition where by projects were executed and tenders invited without budgetary support besides frequently changing the specifications and project designs resulting in cost and time overruns.

Finance Department has laid sharp focus on completion of development projects, their physical verification and concurrent evaluation so that remedial measures are taken even during the course of execution of the projects/works. These measures clubbed with making Administrative Approvals, Technical Sanctions, implementation of Pulse application, making photographic evidence before and after execution of projects mandatory etc. will ultimately lead to efficiency in planning, management and monitoring of the developmental activities.

A picture is worth a thousand words. Proper documentation of development projects completed with photographic evidences is an effort towards our endeavour for brining transparency and accountability in execution of works. The pictorial compendium of projects/works completed during 2019-20 (UT sector) has been prepared by the Expenditure Division-II of the Finance Department. The compendium is in two volumes and contains district-wise/source-wise details of development projects/works of 33 Administrative Departments. I hope that the compendium will imbibe sense of accountability among the executing agencies as it is open to masses to see developmental works that have been executed in their respective areas. I felicitate my team of officers/officials in Expenditure Division-II for putting in hard efforts for completion of the compendium in a record time.

(Dr. Arun Kumar Mehta)

Public Works (R&B) Department
